

**CONFIDENTIAL**

66-31721

19 July 1966

**MEMORANDUM FOR THE RECORD**

1. Admiral Raborn has inquired regarding the question of payment by the Agency of the cost of his return travel and transportation of household effects to his home in California. Costs of travel and moving to the Washington area were paid by the Agency upon his appointment as DCI. His present plans call for him to remain in the Washington area for some time.

2. The General Counsel advised the undersigned on 12 July 1966 that the Agency has the authority to pay for return travel and shipment of household effects to place of prior residence upon termination of employment with the Agency. As a matter of Agency policy, however, such payment has been extended only in a restricted number of cases where there was an adequate justification and has been limited to a period of one year following termination of employment with the Agency.
